

Prompt #1: LinkedIn Post for Product Launch

Template:

You are a LinkedIn content strategist who writes viral posts for companies.

Here are two examples of high-performing LinkedIn posts:

Example 1:

"We just hit 10,000 users. Here's what we learned: [insight 1], [insight 2], [insight 3]. Most people skip step 2. Don't."

Example 2:

"Launching {product_name} today. We spent 6 months solving ONE problem: {problem}. Here's how we did it "

Now write a LinkedIn post announcing the launch of {product_name}, a {product_description} built for {target_audience}.

Constraints:

- Maximum 150 words
- Start with a hook line ("We are excited to announce")
- Use 2–3 relevant emojis only
- Tone: confident and conversational

Iteration: v1 → v2

-In V1, the problem was mentioned briefly. In V2, the post starts with the problem so readers can relate to it.

-V1 focused on explaining the product. V2 focuses on the user's pain point first and then introduces the solution.

OUTPUT:

Most tools make work harder. We built one to make it easier.

Today, we're launching {product_name} — a {product_description} built specifically for {target_audience}.

We focused on solving one problem: helping people spend less time on repetitive tasks and more time on meaningful work.

What makes it different?

- Simple to use from day one
- Built around real user feedback
- Designed to save time without adding complexity

We didn't create another feature-packed product.

We created a solution that helps {target_audience} work smarter, faster, and with confidence.

This is only the beginning, and we can't wait to see what you'll build with it.

Know someone who would benefit from this? Share this post or drop a comment below.

SAMPLE OUTPUT:

Most AI tools make work complicated. We built one to make it simpler.

Today, we're launching Claude — an AI assistant built specifically for professionals, students, and creators.

We focused on solving one problem: helping people spend less time on repetitive tasks and more time on meaningful work.

What makes it different?

- Easy to use from day one
- Provides clear and helpful responses
- Saves time without adding extra complexity

We didn't create another feature-packed tool.

We created a solution that helps users work smarter, faster, and with confidence.

This is only the beginning, and we can't wait to see what you'll create with it.

Prompt #2: Blog Post Intro Paragraph

You are a content writer for a {industry} blog targeting {target_audience}.

Think step by step:

1. First, identify the reader's main pain point related to {topic}
2. Then, hook them with a surprising stat or question
3. Finally, promise what they'll learn by the end

Write a 3-paragraph blog introduction for an article titled:
"{blog_title}"

Constraints:

- Paragraph 1: Hook (question or bold statement)
- Paragraph 2: Agitate the problem
- Paragraph 3: Promise of the article
- Max 120 words total
- no filler phrases like "In today's world"

OUTPUT:

"{blog_title}"

Are you still struggling with {topic}? Most {target_audience} spend too much time dealing with this challenge without realizing how much it affects their results.

The biggest problem is that small mistakes quickly become bigger issues. Without a clear approach, {target_audience} often waste time, money, and effort trying solutions that don't work.

By the end of this article, you'll learn practical strategies to handle {topic}, avoid common mistakes, and build a simpler, more effective process that delivers better results.

SAMPLE OUTPUT:

"Can AI Replace Human Jobs in the Modern World?"

Can artificial intelligence really replace human jobs, or will humans always have an advantage?

Many people worry that AI will take over their careers and make certain skills useless. This uncertainty creates fear and confusion about what jobs will remain valuable in the future.

By the end of this article, you'll understand which jobs AI can automate, which human skills will continue to be important, and how people can adapt to work alongside AI in the modern world.

Sample Output (v1):

Are you struggling to grow your blog? Many writers face this problem. In this article, we will discuss how to write better blog posts that get more traffic.

Iteration: v1 → v2:

In V1, the problem was explained briefly. In V2, the reader's pain point is highlighted more clearly so they can relate to it.

Prompt #3: Product Description

Template:

You are a conversion copywriter for {brand_type} (e.g:premium / budget / eco-friendly).

Write a product description for: {product_name}

Key features: {feature_1}, {feature_2}, {feature_3}

Target buyer: {buyer_persona}

Tone: {tone} (e.g., bold, warm, technical, luxury)

Format:

- 1 headline (under 10 words)
- 2–3 sentence description (lead with outcome, not features)
- 3 bullet points (features → benefits)

Avoid: passive voice, jargon, clichés like "game-changer" or "state-of-the-art"

OUTPUT:

Work Smarter Every Day

Get more done with less effort. {product_name} helps {buyer_persona} save time, stay organized, and achieve better results without adding extra complexity. Its thoughtful design keeps your workflow simple and efficient.

- {feature_1} → Complete tasks faster and reduce manual effort.
- {feature_2} → Stay organized and keep everything in one place.
- {feature_3} → Improve productivity and focus on what matters most.

Try {product_name} today and see how much easier your day can become.

Sample Output:

Wake Up Refreshed Every Morning

Sleep deeper and wake up with more energy. **Emma Mattress** gives you the comfort and support you need for a better night's rest. It

adapts to your body, reduces pressure points, and helps you stay comfortable throughout the night.

- **Pressure-relieving foam** → Supports your body and reduces discomfort while sleeping.
- **Breathable design** → Keeps you cool and comfortable all night.
- **Motion isolation** → Minimizes disturbances from your partner's movements.

Upgrade your sleep with **Emma Mattress** and experience more comfortable nights starting today.

V1: Work Smarter Every Day

Get more done with less effort. {product_name} helps {buyer_persona} save time, stay organized, and achieve better results without adding extra complexity.

V2: Achieve More in Less Time

Stop wasting time on complicated processes. {product_name} helps {buyer_persona} work faster, stay focused, and reach goals with less effort.

Iteration: V1 → V2

- In V1, the description explained the product. In V2, it focuses on the user's problem first.
- In V1, the benefits were generic. In V2, the benefits are clearer and more outcome-focused.
